REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-16 and 28 have been indicated for allowance because the prior art fails to teach the combination of a printing device comprising printing element, each printing element comprising a conductive element which is coupled to by a memory circuit via a buffer amplifier and mapped to at least one portion of a digital image, the conductive element being switchable between at least a first and second state, the first state being attracted to ink and the second state not.

Claims 17, 19-20 and 22-27 have been indicated for allowance because the prior art fails to teach the combination of a digital printing method comprising an array of chips are interconnected to each other and to a common bus, and are coupled to the underlying printing elements.

Claims 29 and 31-45 have been indicated for allowance because the prior art fails to teach the combination of a method of digital printing including the semiconductor memory array comprising an array of individual memory cells, each of the memory cells capable of holding a charge and being superimposed onto the insulated conductive layer, addressing each point of the semiconductor memory and mapping an image to the semiconductor array and using a digital signal to assign an appropriate charge to each memory cell.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
